### Germaine de Capuccini

**FIT CONTOUR** is the first Germaine de Capuccini anti-cellulite treatment devised to fight accumulations caused by hormonal changes that happen as the body becomes mature. Its special formula is prepared based on natural ingredients offering a revolutionary technology to "restore activity and youthfulness" to the cells that are responsible for eliminating fat accumulations: Phyllacantha alga extract, capable of working against the changes on the silhouette caused by hormonal changes typical of maturity. This action is completed by caffeine and silanol, which favours firmness and delays skin aging. 888-477-1477 (S and W); 800-842-9922 (NE and MW); [www.germaine-de-capuccini.us](http://www.germaine-de-capuccini.us); or CRR# 111
